| Utilization of Technology to Increase Environmental Productivity             | TEP          |

### Recording Tips:

1. You may use the Zoom virtual meeting platform or similar screen recording tools (e.g., OBS, PowerPoint with narration, Camtasia) for your video
2. Ensure clear audio and visual quality. Use headphones or microphones for better clarity
3. Practice good presentation skills (eye contact, clear speech, engaging tone)

### Presentation and Conference Participation:

1. Each presenter will be allocated 15 minutes:  
7-10 minutes for the pre-recorded video presentation.  
3–5 minutes for **live Q&A** during the scheduled session.
2. The committee will not accommodate any live presentations (**only Q&A** will be live).
3. **All presenters should fully attend the scheduled parallel session for each presenter**
4. **We will not accommodate any change of schedule for presenters.**
5. Certificates will be distributed **only to the presenters who attended.**
